

WESTERN CANADA **GRAIN** **ELEVATOR** DIRECTORY

CN's Commitment to Grain

Scheduled Grain Plan

CN's launched a transformational Scheduled Grain Plan for Western Canada - applies precision scheduling to grain car deliveries, setting up operating protocols so that cars arrive at specific elevators on scheduled days every week - resulting in a fundamental improvement in system reliability.

CN continues to innovate to better serve you, our customers.

Superior Port Access

CN's high-capacity main line provides efficient single line access from Western Canada to key bulk export gateways, including the ports of Vancouver, Prince Rupert, Thunder Bay, Montreal, Quebec City, Halifax, Mobile and New Orleans.

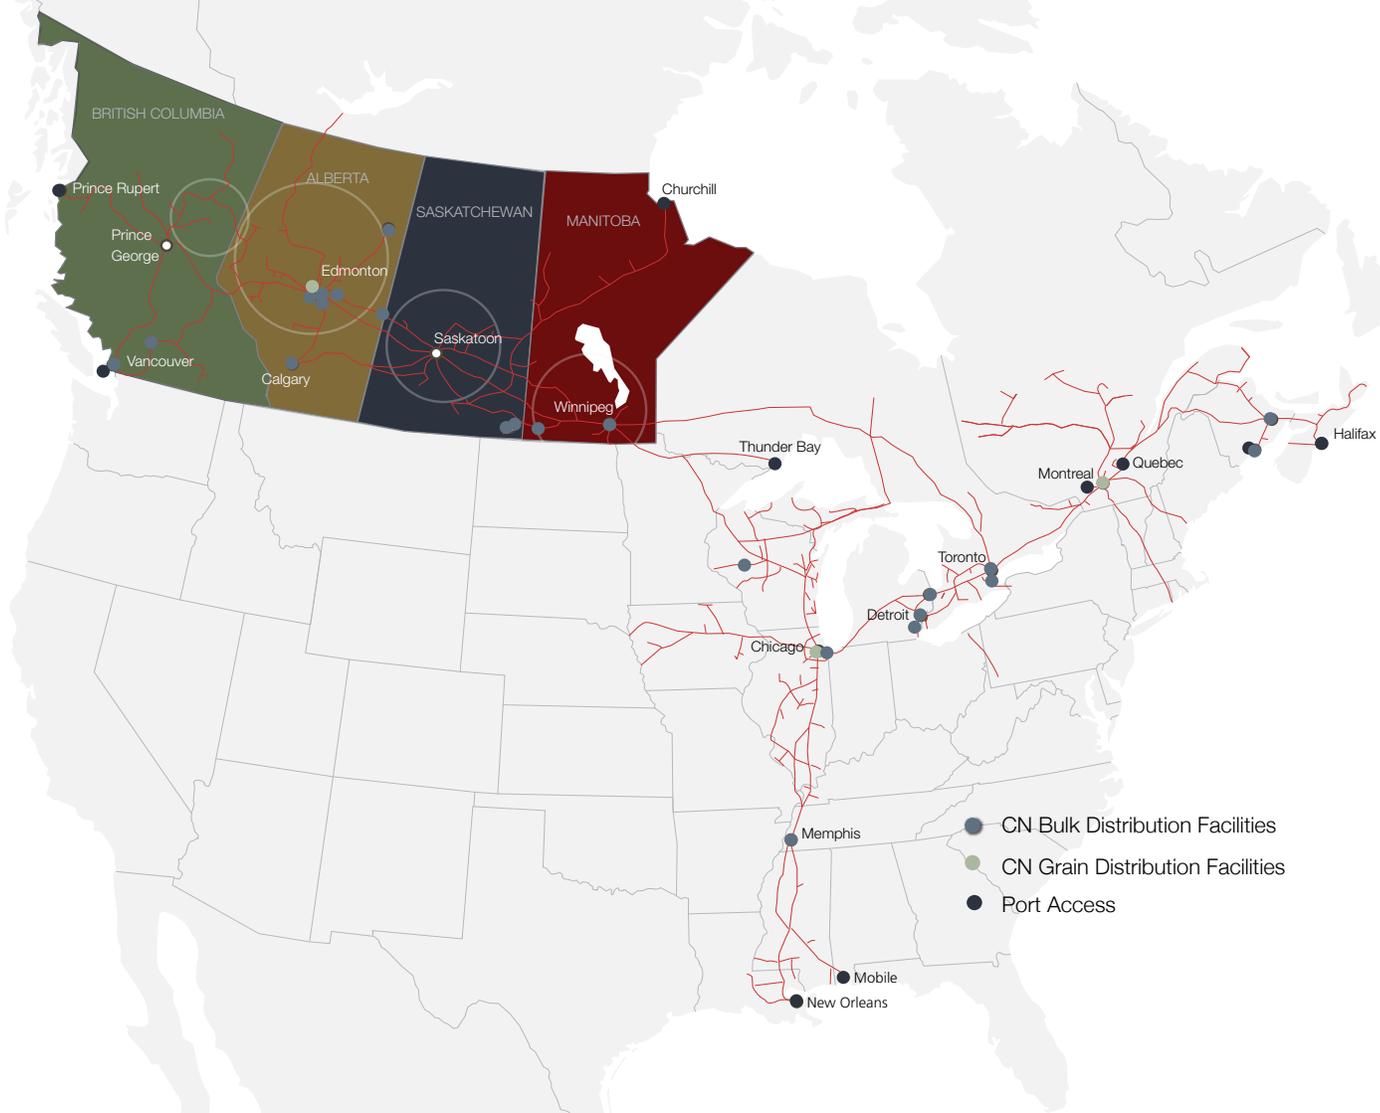

Dedicated Grain Distribution Facilities

CN CargoFlo is a network of bulk distribution terminals which transfers grain and grain product from railcars to trucks and vice versa, as well as loads and unloads overseas containers. CN operates grain facilities in Chicago and Chippewa Falls to effectively serve our customers.

Processed Grain Products

Leading global agribusiness have grain and oilseed processing plants located on the CN system in Western Canada, Eastern Canada and the US Midwest.

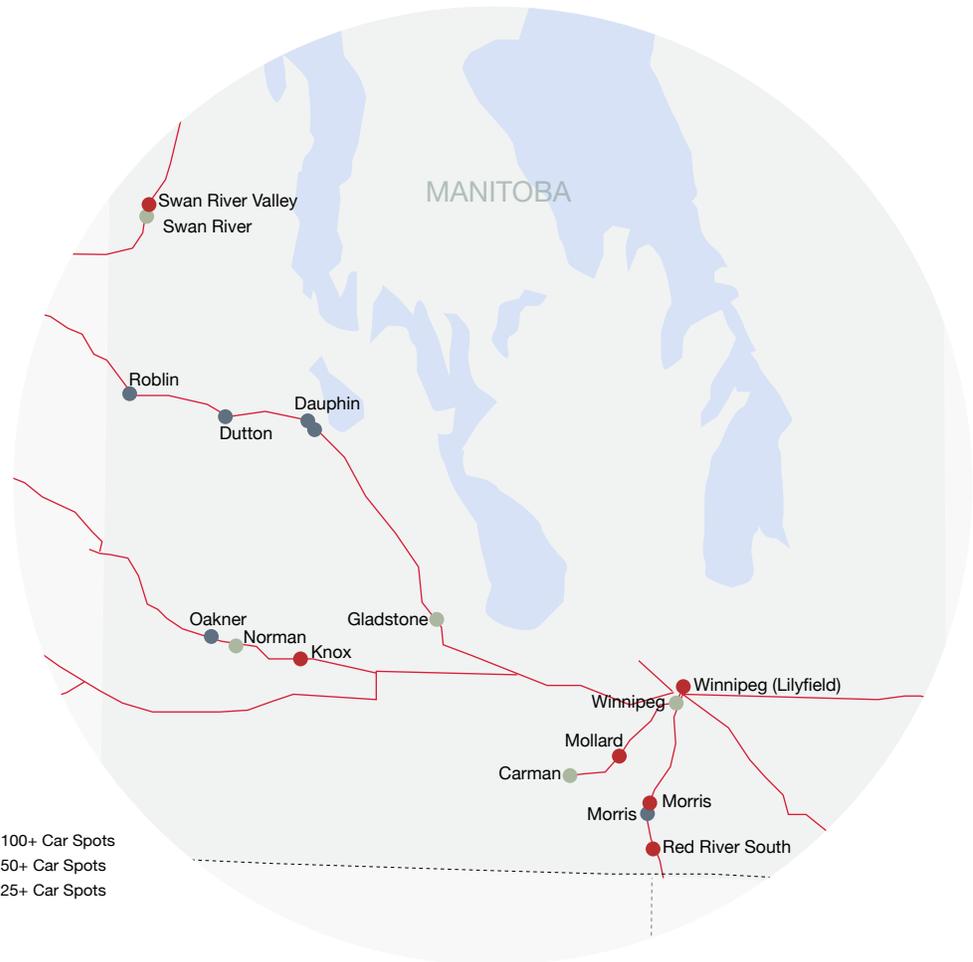

● ● ● ● Elevator Listings

Manitoba	p 4
Saskatchewan	p 6
Alberta	p 11
British Columbia	p 14

* This directory only lists those elevators in Western Canada which has more than 25 car spots.
