NORTH AMERICA'S RAILROAD

CN SCHOLARSHIPS FOR WOMEN – 2010 EDITION

WHAT IS CN?

CN is a leader in Employment Equity initiatives, providing rail-based freight transportation and related services to shippers throughout North America.

WHAT IS THE SCHOLARSHIP PROGRAM FOR WOMEN?

The Scholarship Program for Women is a special initiative of CN to promote employment equity in Canada.

The Scholarship Program for Women is intended to encourage women to seek careers in Trades, Technology and Operations where participation to date by women in these fields has been limited.

There are fifty scholarships of \$600 awarded annually to selected community colleges, institutes of technology and Cégeps listed in this pamphlet.

The scholarships are awarded regardless of whatever other financial assistance applicants may have obtained, and may be used by recipients to ease financial constraints while studying.

The designated programs of study prepare you for work in such fields as carpentry, welding, heavy-duty diesel mechanics, engineering technology, electronics technology, precision machining and heavy equipment operation.

ELIGIBILITY:

If you have been accepted for the fall semester into a program of study in trades, technology or operations at one of the educational institutions listed in this brochure, whether you are continuing your education or reentering the school system as a mature student, you may qualify for one of the scholarships for women.

You must demonstrate your desire for a career in trades, technology or operations by providing a brief description of your career interests and a letter of recommendation.

WHEN SHOULD YOU APPLY?

Application must be submitted to your educational institution no later than **October 15**.

Payments will be issued by CN to the educational institution that will remit money to the recipient.

EVALUATION OF APPLICATIONS:

Each applicant will be evaluated on the basis of her demonstrated interest in a non-traditional career. The schools will make selections independently. The school or college to which they applied will notify successful applicants no later than October 31.

CN is responsible only for selecting the institutions and programs of study, and for providing the scholarship funds.
