

Ocean to Canada

Get the efficiency and economy of electronic customs clearances working for you.

Critical transborder data requirements

1. Equipment initial/number
2. Ocean carrier cited as shipper with address, city, province/state
3. Ocean carrier cited as consignee with address, city, province/state
4. Total number of pieces and package type
5. Complete and accurate description of goods
6. Total weight and unit of measure
7. Seal numbers
8. Ocean carrier Cargo Control Numbers (CCN) as provided to Canada Border Services Agency (CBSA)

Minimum three days prior to vessel arrival at Canadian ocean port

Ocean carrier's EDI Bill of Lading with all critical transborder data must be provided to CN to generate the rail waybill.

Business process notes

CN must receive electronic customs clearance notifications from CBSA.
