Libération automatisée de wagons – codes d'erreurs

Comment libérer des wagons par des échanges interordinateurs.

Ce document contient les définitions techniques des codes d'erreurs que peut faire apparaître l'application qui évalue une demande de libération.

Date de révision : Avril 2018

Liste des codes d'erreurs et des codes d'entrée et de sortie correspondants

Code d'erreur	Explication	Résultat(s)	Input XML	Output XML
<Incorrect username>	Si vous avez entré un mauvais nom d'usager, WebSeal vous retournera un message d'erreur XML.	La transmission est annulée. Entrez le bon nom d'usager et le bon mot de passe et soumettez de nouveau votre demande.		… <faultcode>{http://xml.apache.org/axis/}HTTP</faultcode> <faultstring>(401) Unauthorized</faultstring> …
<Incorrect password>	Si vous avez entré un mauvais mot de passe, WebSeal vous retournera un message d'erreur XML.	La transmission est annulée. Entrez le bon nom d'usager et le bon mot de passe et soumettez de nouveau votre demande.		… <faultcode>{http://xml.apache.org/axis/}HTTP</faultcode> <faultstring>(401) Unauthorized</faultstring> …
<Correct username and password but NOT ACTIVE status account.>	Si votre compte est inactif, WebSeal vous retournera un message d'erreur XML.	Cette situation peut être corrigée seulement si votre compte redevient actif. Communiquez avec l'équipe de soutien des Affaires électroniques, au 1 800 361-0198, pour corriger la situation.		… <faultcode xmlns:ns1="http://xml.apache.org/axis/">HTTP</faultcode> <faultstring>(401)Unauthorized</faultstring> <detail>Your account has been locked for security reasons : return code: 401</detail> …
<When trying to use a temporary password with Web Services>	Si vous avez reçu un mot de passe temporaire pour votre compte, vous devez choisir un nouveau mot de passe en ligne avant d'utiliser les services en ligne.	Ouvrez une session en entrant votre mot de passe temporaire à l'adresse www.cn.ca, choisissez un nouveau mot de passe et accédez de nouveau aux services en ligne en entrant votre nouveau mot de passe.		… <faultcode xmlns:ns1="http://xml.apache.org/axis/">HTTP</faultcode> <faultstring>(401)Unauthorized</faultstring> <detail> You are currently using a temporary password. Please go to www.cn.ca. to reset it : return code: 401 </detail> </soapenv:Fault> …
<No permission/role granted to the application the user is trying to access>	Si le nom d'usager et le mot de passe que vous avez indiqués ne vous ont pas permis d'entrer dans l'application, WebSeal vous retournera un message d'erreur XML.	La transmission est annulée. Communiquez avec l'équipe de soutien des Affaires électroniques, à l'adresse eBusiness@cn.ca, pour corriger la situation.		… <faultcode>{http://xml.apache.org/axis/}HTTP</faultcode> <faultstring>(403) Forbidden</faultstring> …
<Server Error>	Erreur de système imprévue.	Essayez de nouveau plus tard. Si le problème persiste, communiquez avec l'équipe de soutien des Affaires électroniques, à l'adresse eBusiness@cn.ca, pour corriger la situation.		… <faultcode>{http://xml.apache.org/axis/}HTTP</faultcode> <faultstring>(500) Server error</faultstring> …
<Any XML parsing error>	Erreur d'analyse XML.	La transmission est annulée. Corrigez l'erreur indiquée dans la chaîne de caractères reçue et soumettez de nouveau votre demande.		… <faultcode xmlns:ns1="http://xml.apache.org/axis/">ns1:ERROR_XML_PARSER</faultcode> <faultstring>{Error indicated by the XML parser e.g. EquipmentInitials is a required field.}</faultstring> …

Code d'erreur	Explication	Résultat(s)	Input XML	Output XML
<Any unexpected Application error>	Erreur de système imprévue.	Essayez de nouveau plus tard. Si le problème persiste, communiquez avec l'équipe de soutien des Affaires électroniques, à l'adresse eBusiness@cn.ca, pour corriger la situation.		… <faultcode xmlns:ns1="http://xml.apache.org/axis/">ns1:Application problem</faultcode> <faultstring>Information processing stopped by unexpected interruption or command.
