

#RailSafety

X MEANS TRAIN CROSSING

CHANGE YOUR TRAIN OF THOUGHT

You can help keep our communities safe.
Act today. mysafetypledge.com

Trains are always much closer than they appear.
Look and be ready to stop.

In your printer settings, choose "actual size" (not "fit to page")

HOW TO PLAY

Play, learn and share rail safety tips with your friends and family today!

Place the thumb and index fingers of each hand in the four pockets of the Fortune Teller.

Have the person you're playing with pick one of the numbers. If the number is 3, for example, count 1-2-3 while alternating a "pinch and pull" motion with the Fortune Teller.

Each pinch will expose four choices on the inner flaps, and each pull will expose the other four choices.

Ask your friend to pick one of the four choices. Raise the flap to learn an important safety tip or an easy way to help save lives!

DON'T

Never play or stay near a stopped train. Trains can move suddenly, without warning.

DO

Always remove your earphones or earbuds at crossings. You need to hear the whistles and bells that can warn you a train is coming.

DO

1, 2, 3 go. Learn a safety tip from this Fortune Teller and share it with a friend now!

OBIE and MAX

DON'T

Never take a shortcut across tracks. Not only is it dangerous, but it's also against the law.

Stop and wait at crossings as soon as lights flash and gates come down - a train could be passing in 10 seconds!

- Trains can't stop quickly! Stay away from train tracks.
- Listen for warning bells and train whistles. It means a train is coming.
- Look both ways before crossing tracks. A train can hide another coming in the same or opposite direction.

- Tell a grown-up to keep the **CN Police number** handy to report any unsafe situation near the railroad: **1-800-465-9239**.
- Pledge for safety at **mysafetypledge.com** and help us save lives!

DO

DON'T

Never put objects on tracks. They can fly off and hurt someone - maybe even you.

DO

Share these safety tips with your family at dinnertime today! Together you can help save lives!

DON'T

Never ride your bike across tracks. Always walk on the railroad tracks. Tracks can be bumpy when they're wet.

HOW TO FOLD

- 1 Cut along the black dotted line and place the square in front of you, with the side with numbers facing up.
- 2 Fold the piece in half, horizontally (one fold), vertically (one fold), and then twice diagonally (for a total of four folds). Unfold and lay flat after each fold, leaving the side with numbers facing up.
- 3 Flip the piece over, so the side with numbers is facing down, and fold along the blue dotted lines (four folds) to bring the four corners into the centre.
- 4 Flip the piece over, then fold along the pink dotted lines (four folds) to bring the four corners into the centre.
- 5 Fold the piece in half to make a rectangle (the big numbers should be facing up once folded). You're ready to play!
