Forward-Looking Statements

Certain statements included in this presentation constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and under Canadian securities laws. By their nature, forward-looking statements involve risks, uncertainties and assumptions. The Company cautions that its assumptions may not materialize and that current economic conditions render such assumptions, although reasonable at the time they were made, subject to greater uncertainty. Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about the potential impacts of the COVID-19 pandemic on our business, financial results and financial position and on the global supply chain. Forward-looking statements may be identified by the use of terminology such as "believes," "expects," "anticipates," "assumes," "outlook," "plans," "targets," or other similar words.

2020 assumptions

CN's 2020 key assumptions provided in our 2019 year-end earnings news release of January 28, 2020 are withdrawn and can no longer be relied upon given the high degree of business uncertainty caused by the COVID-19 pandemic, its severity, magnitude and duration, including impacts of the pandemic and of businesses' and governments' responses to the pandemic on our business, financial position, results of operations and liquidity. In 2020, CN now plans to invest approximately C$2.9 billion in its capital program, of which C$1.6 billion is still targeted toward track and railway infrastructure maintenance. A reduction of C$0.2 billion in CN's capital program reflecting lower volumes was partly offset by approximately C$0.1 billion due to the negative impact of foreign exchange, resulting in a net C$0.1 billion reduction.

Forward-looking statements are not guarantees of future performance and involve risks, uncertainties and other factors which may cause the actual results or performance of the Company to be materially different from the outlook or any future results or performance implied by such statements. Accordingly, readers are advised not to place undue reliance on forward-looking statements. Important risk factors that could affect the forward-looking statements include, but are not limited to, the effects of a pandemic outbreak of a contagious illness; general economic and business conditions, particularly in the context of the COVID-19 pandemic; industry competition; inflation, currency and interest rate fluctuations; changes in fuel prices; legislative and/or regulatory developments; compliance with environmental laws and regulations; actions by regulators; increases in maintenance and operating costs; security threats; reliance on technology and related cybersecurity risk; trade restrictions or other changes to international trade arrangements; transportation of hazardous materials; various events which could disrupt operations, including illegal blockades of rail networks, and natural events such as severe weather, droughts, fires, floods and earthquakes; climate change; labor negotiations and disruptions; environmental claims; uncertainties of investigations, proceedings or other types of claims and litigation; risks and liabilities arising from derailments; timing and completion of capital programs; and other risks detailed from time to time in reports filed by CN with securities regulators in Canada and the United States. Reference should be made to Management’s Discussion and Analysis in CN’s annual and interim reports, Annual Information Form and Form 40-F, filed with Canadian and U.S. securities regulators on SEDAR at www.sedar.com, as well as on the U.S. Securities and Exchange Commission's website at www.sec.gov through EDGAR and available on CN's website at www.cn.ca/en/investor for a description of major risk factors.

Forward-looking statements reflect information as of the date on which they are made. CN assumes no obligation to update or revise forward-looking statements to reflect future events, changes in circumstances, or changes in beliefs, unless required by applicable securities laws. In the event CN does update any forward-looking statement, no inference should be made that CN will make additional updates with respect to that statement, related matters, or any other forward-looking statement.

Non-GAAP Measures

CN reports its financial results in accordance with United States generally accepted accounting principles (GAAP). CN also uses non-GAAP measures in this presentation that do not have any standardized meaning prescribed by GAAP, including adjusted performance measures, constant currency, free cash flow and adjusted debt-to-adjusted EBITDA multiple. These non-GAAP measures may not be comparable to similar measures presented by other companies. For further details of these non-GAAP measures, including a reconciliation to the most directly comparable GAAP financial measures, refer to the Company’s website, First Quarter Results at www.cn.ca/financial-results.

All amounts in this presentation are expressed in Canadian dollars, unless otherwise noted.

Rob Reilly
Executive VP, Chief Operating Officer and interim Chief Information and Technology Officer
Solid Performance and Recovery After Illegal Blockades Lifted

- One month of illegal blockades across Canada in February impacted revenue, network fluidity and costs
- Strong productivity recovery in March – moved demand efficiently, proving resiliency of operations
- Safety performance also improving

**Car velocity**

- 10% improvement year-over-year in March

**Train speed**

- 10% improvement year-over-year in March

**Through dwell**

- 7% improvement year-over-year in March
Right Sizing Our Resources

- Strong collaboration with Marketing to stay on top of market dynamics – ability to adjust weekly and quickly
- All resources adjusted accordingly – headcount, locomotives, railcars, train starts, local yards, mechanical shops, intermodal terminals, last mile trucking operations
- Maintaining and improving strong productivity of assets and fuel

<table>
<thead>
<tr>
<th>Assets</th>
<th>Productivity</th>
<th>Labour</th>
</tr>

(2) Long-term debt, including current portion, net of cash and cash equivalents, and restricted cash and cash equivalents.

---

**Reinvesting in the Business**

Continuing to harden our track infrastructure, allocating ~$1.6B towards track and railway infrastructure maintenance

Receiving 40 HHP locomotives and 300 grain hoppers in H1

**Committed to Maintaining a Strong Balance Sheet**

2.20x Adjusted debt-to-adjusted EBITDA (1)

Best credit rating in the industry

**Rewarding Shareholders**

Returned $788M to shareholders in Q1 through dividends and share buybacks
Prudent Financial Management in Unprecedented Economic Uncertainty

- Withdrawing 2020 financial guidance and 3-year targets provided at the 2019 Investor Day due to uncertainty caused by COVID-19 pandemic
- Strong balance sheet to weather the storm
  - Best credit rating in the industry, with ability to continue to access commercial paper market
- Reducing capital envelope in 2020 to approximately $2.9B
- Continuing to pause share repurchases and will reassess on an ongoing basis
- Committed to maintaining previously announced 2020 dividend increase of 7%

While it is clear that no one can predict the ultimate impact of the current global economic environment, based on what we know today, the Company is still working to generate a minimum of approximately $2.5B of free cash flow (1) in 2020 (2)

(1) Please see website, First Quarter Results, www.cn.ca/financial-results, for an explanation of this non-GAAP measure.
(2) Please see Forward-Looking Statements at the beginning of the presentation for a summary of key assumptions and important risk factors.
Ready for the Recovery and Remain Focused on the Long-Term

• Strong performance in Q1 amidst month-long illegal blockades

• Solid team in place to weather the current storm

• Our structural advantages position us well to benefit from the recovery

• Continue to work on our strategic pipeline of growth opportunities going forward

• Continue to pursue technology deployment – FRA test program in place for track inspection in the U.S.

• Continue to drive our ESG strategy and fuel strategy even harder than ever

Committed to delivering value to customers and shareholders
### Track Record in Previous Downturns

#### Great Recession (2008-2009)
- RTMs declined 10% in 2009
- Undertook cost takeout efforts including ~900 net reduction in average headcount (approximately 4%)
- Matched 13% decline in revenues with 12% reduction in operating expenses
- Lower oil prices and lower Canadian dollar acting as shock absorbers
- Share repurchases suspended
- Adjusted diluted EPS \(^{(1)}\) declined 13%
- In 2010, RTMs recovered, growing 12% and delivered adjusted diluted EPS increase of 30%

#### Freight Recession (2015-2016)
- RTMs declined 5% in 2016
- Aggressive cost reduction including tight labor cost management (~9% net reduction in average headcount), overtime and unproductive reduction initiatives
- While revenues declined 5%, tight cost control led to a 6% decline in operating expenses
- Continued $2B share repurchase program
- Generated 3% adjusted diluted EPS \(^{(1)}\) growth
- In 2017, RTM growth of 11% and delivered adjusted diluted EPS increase of 9%

---

\(^{(1)}\) Please see website, First Quarter Results, [www.cn.ca/financial-results](http://www.cn.ca/financial-results), for an explanation of this non-GAAP measure.
Strategic Pipeline of Growth Opportunities

- Prince Rupert container expansion
- Propane terminals (Altagas, Pembina)
- Collaboration with Ridley Coal Terminal
- Kitimat LNG terminal
- New plastic plants
- New country grain elevators
- Ramp-up of Coal Spur
- Minneapolis automotive compound
- CargoCool / Temperature-controlled
- Equipment Management Pool (EMP Program)
- Canapux
- Greater Vancouver container terminal expansions
- Teck coal
- G3 and Fraser River Vancouver grain terminals
- Halterm terminal
- CN / CSX port container interline partnership
- CN / CSX port
- Quebec City container port
- Hutchison partnership
- Montreal
- Quebec
- Halifax
- New plastic plants
- New country grain elevators
- Halterm terminal
- CN / CSX port
- PSA International
- Rail Centric
- Consumer Product
- New plastic plants
- New country grain elevators
- Halterm terminal
- CN / CSX port
- PSA International
- Rail Centric
- Consumer Product
Protection of Our Employees during COVID-19 Pandemic

Social distancing
- We are:
  - Conducting job briefings over radio or phone
  - Staggering start time to avoid contact
  - Dividing Engineering production gangs for lunch
  - Spreading out and isolating work areas in buildings
  - Encouraging people to drive their own vehicle to work
  - Applying work-from-home policy for non-essential roles

Cleaning
- We have reinforced cleaning activities in all work areas:
  - Main locations, including elevators, bathrooms, lunch and rest rooms
  - Shops
  - Team vehicles and buses for Engineering production gangs
  - Tools
- For crews and locomotives:
  - Additional wipes are provided in crew packs
  - We are disinfecting locomotives at each servicing event

Protecting our dispatchers
- Split dispatchers in different locations
- Assigned dedicated parking spots and elevator
- Nurses/medical personnel positioned at each center to test for symptoms
- Entrances secured to only vital Operations personnel
- Extra cleaning in place for each work station, bathrooms, lunch and rest rooms

Communication
- Steady and continual messages to all employees on situation and measures taken
- Continuing to educate employees on measures in place – internal web page in place with centralized information available
Measuring Service as Defined by Customers

- Working closely with our customers during disruptions and volume uncertainty
- Delivering on our commitments

Intermodal

![Intermodal service index]

Various service metrics for International and Domestic customers; for example, including container dwell at ports for imports

Bulk

![Bulk service index]

Delivering the number of cars committed to our unit train customers

Merchandise

![Bulk service index]

Delivering the number of cars committed to our customers in the timeframe agreed
Approval of FRA (1) Test Program
Autonomous Track Inspection Program (ATIP)

8 ATIP cars deployed across the network

FRA Test Program

- CN’s ATIP Test Program approved by the FRA
- Multi-phased approach will ultimately lead to
  - Less on-track inspection time for track infrastructure
  - More consistent and regular track evaluations
- Phase 1 update – Chicago to New Orleans corridor
  - Over 29,000 miles of track year-to-date with ATIP car versus 2,400 miles over same period last year
  - Almost 90% reduction of latent regulatory geometry conditions in-track versus traditional inspection method

Creating capacity, improving safety and reliability, and saving costs

(1) Federal Railroad Administration
A Strong Track Record of Fuel and Carbon Efficiency
CN is approximately 15% more carbon efficient than the industry average

Rail locomotive carbon emissions intensity vs Gross Ton Miles (GTMs)

Areas of focus – Opportunities

Achieved 39%
Locomotive emissions intensity improvement over the last 25 years

Targeting 29%
Reduction in emissions per tonne kilometers by 2030 vs 2015 – CN’s science-based target for carbon emissions
