

Distribution Services

Liquid and Dry Bulk

Our **CargoFlo Liquid and Dry Bulk Distribution** facilities are centrally located with easy access to and from major highways and close to customer markets. These facilities are designed to handle a diverse range of commodities such as specialty grains, plastics, food-grade liquids and solids - safely and contaminant-free. Our rapid service, extensive reach and reliability, give your supply chain the competitive advantage.

Flexible transload solutions built around your business.

We ensure that your cargo moves seamlessly from origin to destination.

Let's connect to discuss how CN can customize our services to support your goals.
