

ANNUAL VEGETATION MANAGEMENT PROGRAM. Each year, CN is required to manage vegetation on its right-of-way. Managing this vegetation contributes to mitigating fire risks and enhances the efficiency of inspection of track infrastructure.

The spray program is not being done for aesthetic reasons. This pesticide use is in accordance with the exception to the cosmetic pesticide ban for public health and safety on public works found in subsection 7.1 (2) of the Pesticides Act.

To ensure safe railway operations, CN will conduct its annual spray program on its rail lines in the province of Ontario. A certified professional (Davey Tree Expert Company of Canada, Ltd., 1-800-465-6367) will apply herbicides on and around the railway tracks (primarily along the 24-foot graveled area/ballast). Product requirements for setbacks in the vicinity of dwellings, aquatic environments and municipal water supplies will be met.

CN may use the following herbicides and active ingredients:
