CN handles consumer goods and other intermodal traffic through our terminal in Moncton, where over 250 CN railroaders live and work. Other CN facilities in Moncton include a major rail classification yard as well as automotive and forest products distribution centres and a CargoFlo® bulk handling facility. CN's network extends to the ports of Belledune and Saint John.

In partnership with the Port of Saint John, CN is committed to enabling supply chains and facilitating business in Atlantic Canada. Our weekly CN IntelliGen Genset Service moves temperature-sensitive goods between Saint John, NB, and Brampton, ON. We were also happy to successfully "surge test" our capacity to move potash from the Prairies to the Port of Saint John for export and we anticipate regular service in 2025. Also in 2025, CN will pilot a new service between northern New Brunswick and Moncton, giving customers a competitive option for movements to southern New Brunswick and Nova Scotia.

Network Investments

Over the past decade, CN has invested about \$350 million to build and maintain a safe and efficient network in New Brunswick and to support our supply chain partners. The program focused on bridge upgrades, the replacement of rail and ties, plus maintenance of crossings, culverts, signal systems, and other track infrastructure.

CN is a proud supporter of the Peter McKee Community Food Centre, the largest food bank in N.B., and its efforts to improve support for newborns and their mothers.

Community Investments

In 2024, CN contributed to many New Brunswick-based organizations, including:

FOUNDATION FOR THE CONSERVATION OF ATLANTIC SALMON FCAS promotes enhanced community partnerships for the conservation, restoration and protection of wild Atlantic salmon and its habitat in Atlantic Canada and Quebec. FCAS also works to improve public awareness, education and research into wild Atlantic salmon and its habitat. CN sponsored the Inter-Provincial Atlantic Salmon Conservation Partnership Symposium.

YMCA OF GREATER MONCTON The YMCA of Greater Moncton provides programs and services dedicated to personal growth and community development. They offer a wide range of programs in health and fitness, youth and leadership development, childcare, global initiatives, camps and volunteer opportunities. CN donated to their Be You program, a free drop-in centre for 2SLGBTQ+ youth ages 12-17.

YOUTH IMPACT JEUNESSE Youth Impact Jeunesse provides quality care and guidance to children and youth between 2 and 25 years of age with social, emotional or behavioural challenges. This is accomplished through an array of services and programs to help youth succeed. CN supports youth transitional housing in Bath, Dieppe, Fredericton, Moncton, Quispamsis, Saint John and Sussex.

RIISING TIDE COMMUNITY INITIATIVES CN contributed to RTCI's Beyond Housing Fund to create 153 units of "supportive" housing for homeless individuals living in shelters or on the street. Supportive housing aids those who are incapable of maintaining housing without assistance to deal with mental health and addiction challenges.

SHEDIAC LOBSTER FESTIVAL CN sponsored the 75th annual Shediac Lobster Festival, New Brunswick's oldest festival. Attended by over 40,000 people, the festival celebrated NB's distinctive and inclusive lobster-focused entertainment, community and, of course, food.

TREE CANADA CN partnered with Tree Canada to plant over 25,000 trees across New Brunswick. These trees helped re-establish urban and rural forests, green communities, and recover areas with substantial tree loss to grow a greener future.
