### TOP THREE COMMODITIES

Intermodal

Minerals

Automotive

Nova Scotia is home to the Port of Halifax, where CN handles all rail-served containers imported and exported through this key gateway as Canada looks to diversify its markets. Halifax, home to over 300 CN employees, is the site of a major Autoport, where automotive vehicles imported from overseas enter North America for distribution across the continent. One of our intermodal terminals is also located in Halifax.

### Network Investments

In 2023, CN acquired a stake in the Cape Breton & Central Nova Scotia Railway (CBNS) that includes 145 miles of active track. The CBNS, which interchanges with CN's main line at Truro, continues to be operated by a Genesee & Wyoming Inc. subsidiary. CN's Atlantic operations showed excellent fluidity and efficiency in 2024, including via the ongoing integration of the CBNS short line into CN's tri-coastal network. The region is ready to accommodate new growth and power Nova Scotia's economy to new heights.

Over the past decade, CN has invested more than \$220 million to build and maintain a safe and efficient network in Nova Scotia and to support our supply chain partners. The program focused on upgrades to bridges and the Autoport, the replacement of rail and ties, plus maintenance of crossings, culverts, signal systems, and other track infrastructure.

CN employees rallied to provide financial and clothing donations to support Matthew Gordon of Tantallon, who for the past eight years has coordinated a clothing drive in honour of his father, who was killed on the side of the road while checking cargo on his truck. This year, donations from CN railroaders from across Canada were delivered to Salvation Army locations in Halifax and Winnipeg.

### Community Investments

In 2024, CN contributed to many Nova Scotia-based organizations, including:

**EXTRA TIME SOCIETY** In affiliation with the Halifax Wanderers Football (soccer) Club and other partners, including CN, Extra Time supports nonprofits related to sport, health, youth, homeless or at-risk individuals, food security, community support and protection, and similar groups. Specifically, CN's contribution went toward a patient guest suite at the Izaak Walton Killam Hospital for Children and the Queen Elizabeth II Health Sciences Centre.

**TOWN OF WESTVILLE** CN contributed to the creation of Meghan's Place in Acadia Park, an accessible and inclusive playground for children of all abilities.

**ALICE HOUSE** Alice House provides opportunities for women and their children to create a life free from intimate partner violence by offering safe housing, counselling, and support services. CN contributed to Alice House's Safe Housing Program.

**PORTAPIQUE MARKET COOPERATIVE** Portapique Market provides access to local food in what was once considered a food desert. It is also a gathering space for local community members. The co-op operates a weekly outdoor market hosting a variety of producers and artisans. They also have a playground, children's toys, craft area and host many community events throughout the year. CN supported their Market Greens program.

**ADSUM HOUSE** Adsum has a long history of working with marginalized women and gender-diverse people and their families who experience homelessness. Adsum clients face many obstacles to securing stable housing, both social (poverty, discrimination, racism) and personal (mental illnesses and other disabilities, lack of education, single parenthood, addictions, and histories of trauma and violence). CN supports Adsum's PeerWorks Program.
