CN Campus

CAMPUS OVERVIEW

- Opened in 2014, CN Campus provides a learning experience that blends theoretical and hands-on training with a continuous emphasis on safety
- Operations training team provides new hire and recertification technical training to Transportation, Engineering, Mechanical and Multimodal employees
- Indoor classrooms, labs, and simulators
- Safe and practical hands-on learning on outdoor training tracks, work equipment machines, welding and rail defect yard

A Fallen Worker Memorial was added in 2021 to honor our colleagues who have lost their lives at work. The memorial is an important learning for new hires on the importance of safety and adhering to life critical rules.

CN has two state-of-the-art training facilities, one in Homewood, IL and one in Winnipeg, MB

1. 4-degree defect curve and track unit hi-rail crossing

13

- 2. #8 and #10 defect turnout
- 3. Conductor practical training yard
- 4. #10 / #8 lap switch and #15 cross-over defect turnouts
- 5. Mechanical car jacking & wheel change-out station
- 6. Hot-box detector and WILD site
- 7. Signals & Communications grade crossing bungalow
- 8. Thermite welding tracks
- 9. Hands-on training labs
- 10. Investor Day ETAV demonstration
- 11. Homewood Campus building
- 12. Homewood Admin and Operations building
- 13. Woodcrest locomotive shop
- 14. Fallen Worker Memorial
- 15. Fall Protection training bridge
- 16. Track panel build for Engineering new hires
