2023 QUARTERLY REVIEW FOURTH QUARTER

## **CN Announces Fourth Quarter and Year-End Results**

## Railroad Running Well, Targeting ~10% EPS Growth in 2024

MONTREAL, January 23, 2024 - CN (TSX: CNR) (NYSE: CNI) today reported its financial and operating results for the fourth quarter and year ended December 31, 2023. For the fourth quarter, the Company delivered diluted earnings per share (EPS) of C\$3.29, an increase of 57% and adjusted diluted EPS of C\$2.02, a decrease of 4%. (1) Operating ratio for the fourth quarter increased by 1.4-points to 59.3%. For 2023, the Company reported diluted EPS growth of 15%, while adjusted diluted EPS decreased by 2%. (1) Operating ratio for 2023 increased by 0.8-points, or 0.9-points on an adjusted basis. (1)

"Through 2023, our team of dedicated railroaders leveraged our scheduled operating model to deliver exceptional service for our customers and remained resilient in the face of numerous external challenges. Looking forward, we are optimistic as CN specific growth initiatives are producing volumes. While economic uncertainty persists, we have the momentum to deliver sustainable profitable growth in 2024."

Tracy Robinson, President and Chief Executive Officer, CN

## Financial results highlights

## Fourth-quarter 2023 compared to fourth-quarter 2022

- Revenues of C\$4,471 million, a decrease of C\$71 million or 2%.
- Operating income of C\$1,818 million, a decrease of C\$94 million, or 5%.
- Operating ratio, defined as operating expenses as a percentage of revenues, of 59.3%, an increase of 1.4-points.
- Net income of C\$2,130 million, an increase of C\$710 million, or 50% and adjusted net income of C\$1,305 million, a decrease of C\$115 million, or 8%. (1)
- Diluted EPS of C\$3.29, an increase of 57% and adjusted diluted EPS of C\$2.02, a decrease of 4%. (1)

#### Full-year 2023 compared to full-year 2022

- Revenues of C\$16,828 million, a decrease of C\$279 million or 2%.
- Operating income of C\$6,597 million, a decrease of C\$243 million, or 4%.
- Operating ratio of 60.8%, an increase of 0.8 points, or an increase of 0.9- points on an adjusted basis. (1)
- Net income of C\$5,625 million, an increase of C\$507 million, or 10% and adjusted net income of C\$4,800 million, a decrease of C\$334 million, or 7%. (1)
- Diluted EPS of C\$8.53, an increase of 15% and adjusted diluted EPS of C\$7.28, a decrease of 2%. (1)
- The Company generated free cash flow of C\$3,887 million, a 9% decrease. (1)
- Return on invested capital (ROIC) of 16.8%, an increase of 1.0-point and adjusted ROIC of 14.5%, a decrease of 1.4-points. (1)

#### **Operating performance**

#### Fourth-quarter 2023 compared to fourth-quarter 2022

Operating performance improved across most measures in the fourth quarter of 2023 when compared to the same period in 2022.

- Injury frequency rate at a record low of 0.79 (per 200,000 person hours), an improvement of 14%. (3)
- Accident rate of 1.51 (per million train miles), an improvement of 29%.
- Fuel efficiency of 0.874 (US gallons of locomotive fuel consumed per 1,000 gross ton miles (GTMs)), an improvement of 1%.
- Through dwell of 6.9 (entire railroad, hours), an improvement of 4%.
- Car velocity of 215 (car miles per day), an improvement of 4%.
- Through network train speed (mph) of 19.6 remained flat.
- Train length of 7,951 (in feet), an increase of 1%.
- Revenue ton miles (RTMs) of 61,136 (millions), an increase of 2%.

#### **PRESS RELEASE**

#### Full-year 2023 compared to full-year 2022

The Company's continued focus on scheduled railroading in 2023, helped by more favorable winter operating conditions partly offset by operational disruptions related to Canadian wildfires and the Canadian West Coast dock workers strike, resulted in improvements in car velocity, train speed and through dwell when compared to 2022.

- Injury frequency rate at a record low of 0.96 (per 200,000 person hours), an improvement of 13%. (3)
- Accident rate of 1.74 (per million train miles), an improvement of 17%. (3)
- Through dwell of 7.0 (entire railroad, hours), an improvement of 8%.
- Car velocity of 213 (car miles per day), an improvement of 9%.
- Through network train speed of 19.8 (mph), an improvement of 5%.
- Fuel efficiency of 0.874 (US gallons of locomotive fuel consumed per 1,000 GTMs), less efficient by 1%.
- Train length of 7,891 (in feet), a decrease of 3%.
- Revenue ton miles (RTMs) of 232,614 (millions), a decrease of 1%.

## 2024 outlook and shareholder distributions (2)

In 2024, CN expects to deliver diluted adjusted EPS growth of approximately 10% and expects to invest approximately C\$3.5 billion in its capital program, net of amounts reimbursed by customers. The Company also expects return on invested capital (ROIC) to be within the targeted range of 15%-17%.

CN reiterates its longer-term financial perspective and continues to target compounded annual diluted EPS growth in the range of 10%-15% over the 2024-2026 period driven by growing volumes more than the economy, pricing above rail inflation and incrementally improving efficiency, all of which assumes a supportive economy. (2)

The Company's Board of Directors approved a 7% increase to CN's 2024 guarterly cash dividend, effective for the first quarter of 2024. This is the 28<sup>th</sup> consecutive year of dividend increases, demonstrating our confidence in the long-term financial health of the Company. In addition, the Company's Board of Directors also approved a new Normal course issuer bid (NCIB) that permits CN to purchase, for cancellation, over a 12-month period up to 32 million common shares, starting on February 1, 2024, and ending no later than January 31, 2025.

#### Fourth-quarter 2023 revenues, traffic volumes and expenses

Revenues for the guarter decreased by 2% to C\$4.471 million, when compared to the same period in 2022. The decrease was mainly due to lower shipments of intermodal and grain as well as lower container storage fees and lower fuel surcharge revenues as a result of lower fuel prices; partly offset by freight rate increases and higher shipments of potash, natural gas liquids and refined petroleum products.

Operating expenses for the guarter increased by 1% to C\$2,653 million, when compared to the same period in 2022. The increase was mainly due to higher Labor and fringe benefits expense mainly driven by general wage increases and higher average headcount and higher personal injury and legal claim provisions; partly offset by lower fuel prices.

## Full-year 2023 revenues, traffic volumes and expenses

Revenues for 2023 decreased by 2% to C\$16,828 million, when compared to 2022. The decrease in revenues was mainly attributable to lower shipments of intermodal, crude oil, U.S. grain and forest products as well as lower container storage fees and lower fuel surcharge revenues as a result of lower fuel prices; partly offset by freight rate increases, higher Canadian grain export shipments and higher shipments of potash and the positive translation impact of a weaker Canadian dollar.

Operating expenses were C\$10,231 million. Operating expenses remained flat mainly due to lower fuel prices; offset by the negative translation impact of a weaker Canadian dollar and higher labor and fringe benefits expense mainly driven by general wage increases and higher average headcount.

#### **PRESS RELEASE**

#### (1) Non-GAAP Measures

CN reports its financial results in accordance with United States generally accepted accounting principles (GAAP). CN also uses non-GAAP measures in this news release that do not have any standardized meaning prescribed by GAAP, including adjusted net income, adjusted diluted earnings per share (EPS), adjusted operating income and adjusted operating ratio (referred to as adjusted performance measures), free cash flow, return on invested capital (ROIC) and adjusted ROIC. These non-GAAP measures may not be comparable to similar measures presented by other companies. For further details of these non-GAAP measures, including a reconciliation to the most directly comparable GAAP financial measures, refer to the attached supplementary schedule, Non-GAAP Measures.

CN's full-year adjusted diluted EPS outlook and full-year adjusted ROIC outlook (2) exclude certain adjustments, which are expected to be comparable to adjustments made in prior years. However, management cannot individually quantify on a forward-looking basis the impact of these adjustments on its adjusted diluted EPS or its adjusted ROIC because these items, which could be significant, are difficult to predict and may be highly variable. As a result, CN does not provide a corresponding GAAP measure for, or reconciliation to, its adjusted diluted EPS outlook or its adjusted ROIC outlook.

#### (2) Forward-Looking Statements

Certain statements included in this news release constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and under Canadian securities laws, including statements based on management's assessment and assumptions and publicly available information with respect to CN. By their nature, forward-looking statements involve risks, uncertainties and assumptions. CN cautions that its assumptions may not materialize and that current economic conditions render such assumptions, although reasonable at the time they were made, subject to greater uncertainty. Forward-looking statements may be identified by the use of terminology such as "believes", "expects", "anticipates", "assumes", "outlook", "plans", "targets" or other similar words.

#### 2024 key assumptions

CN has made a number of economic and market assumptions in preparing its 2024 outlook. The Company assumes slightly positive North American industrial production in 2024. For the 2023/2024 crop year, the grain crop in Canada was below its three-year average (also below when excluding the significantly lower 2021/2022 crop year) and the U.S. grain crop was above its three-year average. The Company assumes that the 2024/2025 grain crop in Canada will be in line with its three-year average (excluding the significantly lower 2021/2022 crop year) and the U.S. grain crop will also be in line with its three-year average. CN assumes RTM growth in mid-single digit range. CN assumes continued pricing above rail inflation upon contract renewals. CN also assumes that in 2024, the value of the Canadian dollar in U.S. currency will be approximately \$0.75, and assumes that in 2024 the average price of crude oil (West Texas Intermediate) will be approximately in the US\$70 - US\$80 range per barrel.

#### 2024-2026 key assumptions

CN has made a number of economic and market assumptions in preparing its three-year financial perspective. CN assumes North American industrial production growth of at least two percent CAGR for 2024-2026. CN assumes continued pricing above rail inflation. CN assumes that the value of the Canadian dollar in U.S. currency will be approximately \$0.75 and that the average price of crude oil (West Texas Intermediate) will be approximately US\$80 per barrel during this period.

Forward-looking statements are not guarantees of future performance and involve risks, uncertainties and other factors which may cause actual results, performance or achievements of CN to be materially different from the outlook or any future results, performance or achievements implied by such statements. Accordingly, readers are advised not to place undue reliance on forward-looking statements. Important risk factors that could affect the forward-looking statements include, but are not limited to, general economic and business conditions, including factors impacting global supply chains such as pandemics and geopolitical conflicts and tensions; industry competition; inflation, currency and interest rate fluctuations; changes in fuel prices; legislative and/or regulatory developments; compliance with environmental laws and regulations; actions by regulators; increases in maintenance and operating costs; security threats; reliance on technology and related cybersecurity risk; trade restrictions or other changes to international trade arrangements; transportation of hazardous materials; various events which could disrupt operations, including illegal blockades of rail networks, and natural events such as severe weather, droughts, fires, floods and earthquakes; climate change; labor negotiations and disruptions; environmental claims; uncertainties of investigations, proceedings and other types of claims and litigation; risks and liabilities arising from derailments; timing and completion of capital programs; the availability of and cost competitiveness of renewable fuels and the development of new locomotive propulsion technology; reputational risks; supplier concentration; pension funding requirements and volatility; and other risks detailed from time to time in reports filed by CN with securities regulators in Canada and the United States. Reference should also be made to Management's Discussion and Analysis (MD&A) in CN's annual and interim reports, Annual Information Form and Form 40-F, filed with Canadian and U.S. securities regulators and available on CN's website, for a description of major risk factors relating to CN.

Forward-looking statements reflect information as of the date on which they are made. CN assumes no obligation to update or revise forward-looking statements to reflect future events, changes in circumstances, or changes in beliefs, unless required by applicable securities laws. In the event CN does update any forward-looking statement, no inference should be made that CN will make additional updates with respect to that statement, related matters, or any other forward-looking statement. Information contained on, or accessible through, our website is not incorporated by reference into this news release.

#### **PRESS RELEASE**

This earnings news release is available on the Company's website at www.cn.ca/financial-results and on SEDAR+ at www.sedarplus.ca as well as on the U.S. Securities and Exchange Commission's website at www.sec.gov through EDGAR.

#### **About CN**

CN is a world-class transportation leader and trade-enabler. Essential to the economy, to the customers, and to the communities it serves, CN safely transports more than 300 million tons of natural resources, manufactured products, and finished goods throughout North America every year. CN's network connects Canada's Eastern and Western coasts with the U.S. South through an 18,800 mile rail network. CN and its affiliates have been contributing to community prosperity and sustainable trade since 1919. CN is committed to programs supporting social responsibility and environmental stewardship.

#### NON-GAAP MEASURES - UNAUDITED

In this supplementary schedule, the "Company" or "CN" refers to Canadian National Railway Company, together with its wholly-owned subsidiaries. Financial information included in this schedule is expressed in Canadian dollars, unless otherwise noted.

CN reports its financial results in accordance with United States generally accepted accounting principles (GAAP). The Company also uses non-GAAP measures that do not have any standardized meaning prescribed by GAAP, including adjusted performance measures, constant currency, free cash flow, adjusted debt-to-adjusted EBITDA multiple, return on invested capital (ROIC) and adjusted ROIC. These non-GAAP measures may not be comparable to similar measures presented by other companies. From management's perspective, these non-GAAP measures are useful measures of performance and provide investors with supplementary information to assess the Company's results of operations and liquidity. These non-GAAP measures should not be considered in isolation or as a substitute for financial measures prepared in accordance with GAAP.

## **Adjusted performance measures**

Adjusted net income, adjusted diluted earnings per share, adjusted operating income, adjusted operating expenses and adjusted operating ratio are non-GAAP measures that are used to set performance goals and to measure CN's performance. Management believes that these adjusted performance measures provide additional insight to management and investors into the Company's operations and underlying business trends as well as facilitate period-to-period comparisons, as they exclude certain significant items that are not reflective of CN's underlying business operations and could distort the analysis of trends in business performance. These items may include:

- operating expense adjustments: workforce reduction program, depreciation expense on the deployment of replacement system, advisory fees related to shareholder matters, losses and recoveries from assets held for sale, business acquisition-related costs;
- non-operating expense adjustments: business acquisition-related financing fees, merger termination income, gains and losses on disposal
- the effect of changes in tax laws including rate enactments, and changes in tax positions affecting prior years.

These non-GAAP measures do not have any standardized meaning prescribed by GAAP and therefore, may not be comparable to similar measures presented by other companies.

For the three months and year ended December 31, 2023, the Company's adjusted net income was \$1,305 million, or \$2.02 per diluted share, and \$4,800 million, or \$7.28 per diluted share, respectively. The adjusted figures for the three months and year ended December 31, 2023

- a gain on disposal of property within the Bala Subdivision located in Markham and Richmond Hill, Ontario, Canada of \$129 million, or \$112 million after-tax (\$0.17 per diluted share) recorded in the fourth quarter in Other income within the Consolidated Statements of Income;
- a net deferred income tax recovery of \$713 million (\$1.10 per diluted share for the quarter and \$1.08 per diluted share for the year) recorded in the fourth quarter resulting from tax filings consistent with a ruling that the Company received in a non-U.S. foreign jurisdiction in connection with prior taxation years.

For the three months and year ended December 31, 2022, the Company's adjusted net income was \$1,420 million, or \$2.10 per diluted share, and \$5,134 million, or \$7.46 per diluted share, respectively. The adjusted figures for the year ended December 31, 2022 exclude advisory fees related to shareholder matters of \$22 million, or \$16 million after-tax (\$0.02 per diluted share) of which \$12 million, or \$9 million after-tax (\$0.01 per diluted share) was recorded in the second quarter and \$10 million, or \$7 million after-tax (\$0.01 per diluted share) was recorded in the first quarter in Other expense within the Consolidated Statements of Income.

#### **NON-GAAP MEASURES - UNAUDITED**

Adjusted net income is defined as Net income in accordance with GAAP adjusted for certain significant items. Adjusted diluted earnings per share is defined as adjusted net income divided by the weighted-average diluted shares outstanding. The following table provides a reconciliation of Net income and Earnings per share in accordance with GAAP, as reported for the three months and years ended December 31, 2023 and 2022, to the non-GAAP adjusted performance measures presented herein:

	Three months ended December 31					Year ended December 31				
In millions, except per share data		2023		2022		2023		2022

Adjusted diluted earnings per share	\$	2.02	\$	2.10	\$	7.28	\$	7.46		

<sup>(1)</sup> The tax impact of adjustments is based on the nature of the item for tax purposes and related tax rates in the applicable jurisdiction.

Adjusted operating income is defined as Operating income in accordance with GAAP adjusted for certain significant operating expense items. Adjusted operating expenses is defined as Operating expenses in accordance with GAAP adjusted for certain significant operating expense items. Adjusted operating ratio is defined as adjusted operating expenses as a percentage of revenues. The following table provides a reconciliation of Operating income, Operating expenses and operating ratio, as reported for the three months and years ended December 31, 2023 and 2022, to the non-GAAP adjusted performance measures presented herein:

	Three months ended December 31					Year ended December 31				
In millions, except percentages		2023		2022		2023		2022		
Operating income	\$	1,818	\$	1,912	\$	6,597	\$	6,840

Adjusted operating ratio		59.3 %		57.9 %		60.8 %		59.9 %		

<sup>(2)</sup> Relates to the impacts of recognizing the \$767 million deferred income tax recovery party offset by a \$54 million income tax expense on the foregone tax deductions for the 2021 and 2022 taxation years.

## **Constant currency**

Financial results at constant currency allow results to be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons in the analysis of trends in business performance. Measures at constant currency are considered non-GAAP measures and do not have any standardized meaning prescribed by GAAP and therefore, may not be comparable to similar measures presented by other companies. Financial results at constant currency are obtained by translating the current period results denominated in US dollars at the weighted average foreign exchange rates used to translate transactions denominated in US dollars of the comparable period of the prior year.

The average foreign exchange rates were \$1.362 and \$1.350 per US\$1.00 for the three months and year ended December 31, 2023, respectively, and \$1.358 and \$1.301 per US\$1.00 for the three months and year ended December 31, 2022, respectively. On a constant currency basis, the Company's Net income for the three months and year ended December 31, 2023 would have been lower by \$2 million (\$nil per diluted share) and lower by \$96 million (\$0.15 per diluted share), respectively.

The following table provides a reconciliation of the impact of constant currency and related percentage change at constant currency on the financial results, as reported for the three months and year ended December 31, 2023:

	Thre	e month	ns ende	ed Decemb	er 31		Year	ended De	ecember 31

#### **NON-GAAP MEASURES - UNAUDITED**

## Free cash flow

Free cash flow is a useful measure of liquidity as it demonstrates the Company's ability to generate cash for debt obligations and for discretionary uses such as payment of dividends, share repurchases and strategic opportunities. The Company defines its free cash flow measure as the difference between net cash provided by operating activities and net cash used in investing activities, adjusted for the impact of (i) business acquisitions and combinations and (ii) merger transaction-related payments, cash receipts and cash income taxes, which are items that are not indicative of operating trends. Free cash flow does not have any standardized meaning prescribed by GAAP and therefore, may not be comparable to similar measures presented by other companies.

The following table provides a reconciliation of Net cash provided by operating activities in accordance with GAAP, as reported for the three months and years ended December 31, 2023 and 2022, to the non-GAAP free cash flow presented herein:

	Thr	Three months ended December 31			Year ended December 31				
In millions		2023		2022		2023		2022	
Net cash provided by operating activities	\$	2,413	\$	2,272	\$	6,965	\$	6,667	
Net cash used in investing activities		(1,190)		(937)		(3,468)		(2,510)	
Net cash provided before financing activities		1,223		1,335		3,497		4,157	
Adjustments:									
Business acquisitions and combinations (1)		390		_		390		_	
Cash income taxes for merger transaction-related payments and cash receipts $^{(2)}$		_		_		_		102	
Total adjustments		390		_		390		102	
Free cash flow	\$	1,613	\$	1,335	\$	3,887	\$	4,259	

Relates to the acquisition of the shares of lowa Northern Railway Company for \$312 million and the business combination of Cape Breton & Central Nova Scotia Railway for \$78 million. See Note 3 – Business acquisitions and combinations to the Company's unaudited Interim Consolidated Financial Statements for additional information.

Relates to income tax payments of \$102 million for KCS merger transaction-related payments and cash receipts.

### Adjusted debt-to-adjusted EBITDA multiple

Management believes that the adjusted debt-to-adjusted EBITDA multiple is a useful credit measure because it reflects the Company's ability to service its debt and other long-term obligations. The Company calculates the adjusted debt-to-adjusted EBITDA multiple as adjusted debt divided by the last twelve months of adjusted EBITDA. Adjusted debt is defined as the sum of Long-term debt and Current portion of long-term debt as reported on the Company's Consolidated Balance Sheets as well as Operating lease liabilities, including current portion and pension plans in deficiency recognized on the Company's Consolidated Balance Sheets due to the debt-like nature of their contractual and financial obligations. Adjusted EBITDA is calculated as Net income excluding Interest expense, Income tax expense, Depreciation and amortization, operating lease cost, Other components of net periodic benefit income, Other income (loss), and other significant items that are not reflective of CN's underlying business operations and which could distort the analysis of trends in business performance. Adjusted debt and adjusted EBITDA are non-GAAP measures used to compute the Adjusted debt-to-adjusted EBITDA multiple. These measures do not have any standardized meaning prescribed by GAAP and therefore, may not be comparable to similar measures presented by other companies.

The following table provides a reconciliation of debt and Net income in accordance with GAAP, reported as at and for the years ended December 31, 2023 and 2022, respectively, to adjusted debt and adjusted EBITDA, which have been used to calculate the non-GAAP adjusted debt-to-adjusted EBITDA multiple:

In millions, unless otherwise indicated	As at and for the year ended December 31,	2023	2022
Debt	\$	18,473	\$ 15,429
Adjustments:			
Operating lease liabilities, including current portion (1)		415	466
Pension plans in deficiency (2)		362	353
Adjusted debt	\$	19,250	\$ 16,248
Net income	\$	5,625	\$ 5,118
Interest expense		722	548
Income tax expense		863	1,645
Depreciation and amortization		1,817	1,729
Operating lease cost (3)		149	142
Other components of net periodic benefit income		(479)	(498)
Other loss (income)		(134)	27
Adjustment:			
Advisory fees related to shareholder matters (4)		_	22
Adjusted EBITDA	\$	8,563	\$ 8,733
Adjusted debt-to-adjusted EBITDA multiple (times)		2.25	1.86

- Represents the present value of operating lease payments.
- (2)Represents the total funded deficit of all defined benefit pension plans with a projected benefit obligation in excess of plan assets.
- Represents the operating lease costs recorded in Purchased services and material and Equipment rents within the Consolidated Statements of Income. (3)
- Relates to advisory fees related to shareholder matters recorded in Other expense within the Consolidated Statements of Income.

#### **NON-GAAP MEASURES – UNAUDITED**

## **ROIC and adjusted ROIC**

ROIC and adjusted ROIC are useful measures for management and investors to evaluate the efficiency of the Company's use of capital funds and allow investors to assess the operating and investment decisions made by management. The Company calculates ROIC as return divided by average invested capital, both of which are non-GAAP measures. Return is defined as Net income plus interest expense after-tax, calculated using the Company's effective tax rate. Average invested capital is defined as the sum of Total shareholders' equity, Long-term debt and Current portion of long-term debt less Cash and cash equivalents, and Restricted cash and cash equivalents, averaged between the beginning and ending balance over the last twelve-month period. The Company calculates adjusted ROIC as adjusted return divided by average invested capital, both of which are non-GAAP measures. Adjusted return is defined as adjusted net income plus interest expense after-tax, calculated using the Company's adjusted effective tax rate. Return, average invested capital, ROIC, adjusted return and adjusted ROIC do not have any standardized meaning prescribed by GAAP and therefore, may not be comparable to similar measures presented by other companies.

The following table provides a reconciliation of Net income and adjusted net income to return and adjusted return, respectively, as well as the calculation of average invested capital, which have been used to calculate ROIC and adjusted ROIC:

In millions, except percentage	As at and for the year ended December 31,	2023	2022
Net income	\$	5,625	\$ 5,118
Interest expense		722	548
Tax on interest expense (1)		(177)	(133)
Return	\$	6,170	\$ 5,533
Average total shareholders' equity	\$	20,751	\$ 22,064
Average long-term debt		15,253	13,175
Average current portion of long-term debt		1,699	783
Less: Average cash, cash equivalents, restricted cash and restrict	ed cash equivalents	(879)	(1,088)
Average invested capital	\$	36,824	\$ 34,934
ROIC		16.8%	15.8%
Adjusted net income (2)	\$	4,800	\$ 5,134
Interest expense		722	548
Tax on interest expense (3)		(177)	(133)
Adjusted return	\$	5,345	\$ 5,549
Average invested capital	\$	36,824	\$ 34,934
Adjusted ROIC		14.5%	15.9%

- The effective tax rate, defined as income tax expense as a percentage of income before income taxes, used to calculate the tax on interest expense for 2023 was 24.5% (2022 - 24.3%). Due to the significantly lower effective tax rate reported by the Company in 2023, tax on interest expense for 2023 was calculated using an adjusted effective tax rate.
- This Non-GAAP measure does not have any standardized meaning prescribed by GAAP and therefore, may not be comparable to similar measures presented by other companies. See the supplementary schedule entitled Non-GAAP Measures - Adjusted performance measures for an explanation of this non-GAAP measure.
- The adjusted effective tax rate is a non-GAAP measure, defined as Income tax expense, net of tax adjustments as presented in Adjusted performance measures as a percentage of Income before taxes, net of pre-tax adjustments as presented in Adjusted performance measures. This measure does not have any standardized meaning prescribed by GAAP and therefore, may not be comparable to a similar measure presented by other companies. The adjusted effective tax rate used to calculate the adjusted tax on interest expense for 2023 was 24.5% (2022 - 24.3%).

#### NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

## 1 - Basis of presentation

In these notes, the "Company" or "CN" refers to, Canadian National Railway Company, together with its wholly-owned subsidiaries. The accompanying unaudited Interim Consolidated Financial Statements ("Interim Consolidated Financial Statements"), expressed in Canadian dollars, have been prepared in accordance with United States generally accepted accounting principles (GAAP) for interim financial statements. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statements. In management's opinion, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included. Interim operating results are not necessarily indicative of the results that may be expected for the full year.

These Interim Consolidated Financial Statements have been prepared using accounting policies consistent with those used in preparing CN's 2022 Annual Consolidated Financial Statements and should be read in conjunction with such statements and Notes thereto.

#### 2 - Recent accounting pronouncements

The following recent Accounting Standards Updates (ASU) issued by the Financial Accounting Standards Board (FASB) has an effective date after December 31, 2023 and has not been adopted by the Company:

#### ASU 2023-07 Segment reporting (Topic 280): Improvements to reportable segment disclosures

The ASU will improve financial disclosures about a public entity's reportable segments and address requests from investors for additional and more detailed information regarding reportable segment expenses. The main amendments in the ASU require public entities, including those that have a single reportable segment, to disclose on an annual and interim basis the significant segment expenses provided to the chief operating decision maker (CODM), disclose the title/position of the CODM and how the segment expenses information is used in the decision making process.

The ASU is effective for annual periods beginning after December 15, 2023. Early adoption is permitted.

The adoption of the ASU will have an impact on the Company's Consolidated Financial Statements disclosures. The Company will include the relevant disclosure within the 2024 Annual Consolidated Financial Statements and 2025 Interim Financial Statements.

#### ASU 2023-09 - Income Taxes (Topic 740): Improvements to income tax disclosures

The ASU amends the rules on income tax disclosures by modifying or eliminating certain existing income tax disclosure requirements in addition to establishing new requirements. The amendments address investor requests for more transparency about income taxes, including jurisdictional information, by requiring consistent categories and greater disaggregation of information. The ASU's two primary amendments relate to the rate reconciliation and income taxes paid annual disclosures.

Reconciling items presented in the rate reconciliation will be in dollar amounts and percentages, and will be disaggregated into specified categories with certain reconciling items further broken out by nature and/or jurisdiction using a 5% threshold of domestic federal taxes. Income taxes paid will be disaggregated between federal, provincial/territorial, and foreign taxing jurisdictions using a 5% threshold of total income taxes paid net of refunds received.

The ASU is effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The ASU should be applied prospectively. Retrospective application is permitted.

The adoption of the ASU will have an impact on the Company's Consolidated Financial Statements disclosures. The required disclosure changes will be reflected in the Company's Consolidated Financial Statements when the ASU is adopted.

#### NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

The following Accounting Standards Updates (ASU) issued by the Financial Accounting Standards Board (FASB) have been adopted by the Company:

#### ASU 2020-04 and ASU 2022-06 Reference rate reform (Topic 848): Facilitation of the effects of reference rate reform on financial reporting and related amendments

On March 31, 2023, the Company amended the non-revolving credit facility to transition to Secured Overnight Financing Rates (SOFR) succeeding London Interbank Offered Rates (LIBOR). The Company was eligible and has elected to use the optional expedient provided by the ASU which allowed the amendment to be accounted for as a non substantial modification of an existing debt. As a result, the amendment did not have a significant impact to the Company's Interim Consolidated Financial Statements and related disclosures.

Additional information relating to the facilitation of the effects of reference rate reform on financial reporting and related amendments is provided in Note 3 - Recent accounting pronouncements to the Company's 2022 Annual Consolidated Financial Statements and the section entitled Recent accounting pronouncements of the Company's 2022 Annual MD&A.

Other recently issued ASUs required to be applied on or after December 31, 2023 have been evaluated by the Company and are not expected to have a significant impact on the Company's Consolidated Financial Statements.

## 3 - Business acquisitions and combinations

#### Iowa Northern Railway Company

On December 6, 2023, the Company acquired the shares of the Iowa Northern Railway Company (IANR), a Class III short-line railroad that owns and leases approximately 175 route miles in northeast lowa that are connected to CN's U.S. rail network. CN paid US\$230 million (\$312 million), including transaction costs to date. IANR serves upper Midwest agricultural and industrial markets covering many goods, including biofuels and grain. This transaction represents a meaningful opportunity to support the growth of local business by creating single-line service to North American destinations, while preserving access to existing carrier options.

The shares of IANR were deposited into an independent voting trust while the U.S Surface Transportation Board (STB) considers the Company's application to acquire control of IANR. During the trust period, IANR will continue to be operated under its current management and the Company cannot exercise day-to-day control. As a result, the Company recorded its investment in IANR at its acquisition cost under the equity method of accounting. Subject to final approval by the STB, the Company would obtain control of IANR and would account for the acquisition as a business combination under the acquisition method of accounting.

On the acquisition date of December 6, 2023, immediately prior to the acquisition, there was a basis difference of \$236 million between the consideration paid to acquire IANR and the underlying carrying value of the net assets of IANR. The basis difference related to depreciable properties and if any, intangible assets with definite lives will be amortized over the related assets' remaining useful lives. The remainder of the basis difference, relating to land, intangible assets with indefinite lives if any, and equity method goodwill, would not be amortized and would be carried at cost subject to an assessment for impairment. The estimated fair value of IANR's underlying net assets is preliminary based on information available to the Company to date and subject to change over the measurement period, which may be up to twelve months from the acquisition date.

The Company has not provided summarized financial information for IANR, on its historical cost basis, for the period December 6 to December 31, 2023, and as at December 31, 2023 as it was not material.

#### NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

#### Cape Breton & Central Nova Scotia Railway

On November 1, 2023, the Company acquired from Genesee & Wyoming Inc, a stake in the Cape Breton & Central Nova Scotia Railway (CBNS), a Class III short-line railroad that owns approximately 150 route miles. CN paid \$78 million in cash, net of cash acquired and including working capital adjustments. The acquisition was accounted for as a business combination. As a result, the Company's Consolidated Balance Sheet includes the net assets of CBNS as of November 1, 2023, which were comprised of \$101 million in fair value of properties mostly track and roadway assets, partly offset by \$18 million in deferred tax liabilities. The remaining net assets were comprised of current assets and liabilities which were individually insignificant and there were no identifiable intangible assets. No goodwill was recognized. The fair value of CBNS's underlying net assets has been estimated on a preliminary basis and may be subject to change as additional information becomes available over the next twelve months. The Company has not provided pro forma information related to prior periods as it was not material.

#### 4 - Other income

#### 2023

#### Disposal of property

On December 13, 2023, the Company completed the sale of a portion of land within the Bala Subdivision located in Markham and Richmond Hill, Ontario, Canada for cash proceeds of \$129 million which resulted in a gain of \$129 million (\$112 million after tax) as the carrying amount of the land was nominal.

#### 5 - Income taxes

In the fourth quarter of 2023, the Company received a ruling from taxation authorities in a non-U.S. foreign jurisdiction in connection with prior taxation years. Consistent with the ruling, and effective as of January 1, 2021, the Company has foregone favorable tax deductions of a permanent nature on certain income generated from intercompany arrangements. This resulted in the Company generating tax-deductible goodwill approximating the value of the foregone tax deductions, which is available to be amortized over a period of up to ten years.

As a result, the Company recorded a net deferred income tax recovery of \$682 million, comprised of a \$767 million deferred income tax recovery related to the tax-deductible goodwill initially generated as of January 1, 2021, partly offset by a \$85 million income tax expense related to the foregone tax deduction (\$31 million for 2023 and \$54 million for prior years) which was initially recorded in current taxes and was then reclassified to deferred taxes following the amortization of the tax-deductible goodwill for those years. As a result, the remaining deferred income tax asset as at December 31, 2023 was \$682 million, representing the tax impact of unamortized tax-deductible goodwill of \$5.8 billion.

#### 6 - Subsequent event

#### Normal course issuer bid (NCIB)

On January 23, 2024, the Board of Directors of the Company approved a new NCIB, which allows for the repurchase of up to 32.0 million common shares between February 1, 2024 and January 31, 2025.
