

Notice of Britannia Road Intersection Construction

April 7, 2025

Construction Activity

CN will be constructing a truck entrance off Britannia Road to provide access to the CN Milton Logistics Hub. This work involves modifications to an existing intersection that has been constructed but not yet put into use, located approximately 250 metres west of First Line.

Please refer to the map on the right for location details.

Construction is anticipated to start this spring, and will take approximately four to six months to complete.

Construction Scope

- Building eastbound right turn and westbound left turn lanes
- Hydro pole relocations
- Alterations to the south-side bicycle lane and multi-use path to align with lane changes
- Traffic signal modifications to align with lane changes
- Minor road surface adjustments within the intersection

What to Expect

Anticipated changes in the vicinity of the project site while work is being performed may include:

- Lane closures will occur, but the road will remain open in both directions
- The south-side multi-use path will have temporary closures, but bicycle lanes will be maintained in both directions
- Night and weekend work may also be undertaken to reduce traffic disruption
